Karen J. Rooney

Give struggling students the study skills they need to achieve across the curriculum!

In this book, Karen Rooney, PhD, offers general and special education teachers field-tested learning strategies to help struggling learners. Designed for students with or without learning disabilities, these strategies can improve cross-curricular skills in areas that include reading, writing, spelling, and math, and help teachers to:

- Engage students in the learning process
- Provide students with an effective skill set for all content areas
- Improve motivation, increase comprehension, and foster confidence
- Offer intense, explicit, and reiterative systems to help students “learn how to learn”
- Work with entire classes or individuals
